## OUT WEST AT CASINO FRIDAY, MARCH 1

Reports from the advance sale of tickets for the University play, "Out West," which is to be given at the Casino tomorrow night, promise that a large attendance will be present to enjoy the play. "Out West" is one of George Townsends' popular comedies, and it has never been witnessed by an Albuquerque audience. The piece is one in which the diversified population of the early mining camp days is fully represented, and in the progress of the play many situations of side-splitting merriment are developed. The carefully creased tenderfoot is thrown into convulsions at the sight of a grimy Indian stoic, no less than the mock reformer, who attempts to remonstrate with Broncho Bill for playing poker. "One Lung" the Chinaman, and Senator Juniper Toots, a politician of the true political dye (which is "never say die"), also assist in the fun.

The conventional dude, an excitable Irishman, a susceptible old maid, an inn-keeper, and his inalienable better half, a typical old-time peddler and even a villain are not lacking in the show. Altogether fourteen well-contrasted characters appear in the cast.

The Dramatic club, which was organized several months ago, partakes fully of the enthusiasm that always characterizes University enterprises and the students are looking forward expectantly to expressions of approval on the part of the public for "Out West."

The committee on management of the play consists of Mr. McMillin, Miss Walker and Miss Mordy. Prof. Crum is the director of the play.

Girls, come tonight. See this beautiful love story at Elks' theater, 15, 25 and 35 cents.

## Home Insurance the Best

WE CANNOT refrain from again saying something about Home Insurance. Every time that the proposition presents itself of the tremendous amount of money that is being sent out of New Mexico and Arizona for life insurance to eastern cities, the conviction comes home with increased force that a home company ought to be patronized and the money remain in the West.

The revelations of the past year of the way the enormous surplus of the big Eastern companies has been handled and speculated with ought to emphasize the fact that the people of the West should stop pouring their money into Eastern channels when it can be placed in home insurance, and every dollar of it kept and invested at home.

It is gratifying to note that home insurance is year by year receiving more and more its just deserts. Statistics show that during the past year home companies far exceeded foreign companies in the amount of business written. Why cannot this same record be made here? It can if every individual who takes out a policy the coming year will carefully weigh the proposition of the value it is to keep his insurance at home before he puts his name to the application of any insurance company.

The Occidental Life Insurance Company of New Mexico and Arizona is owned and controlled by the leading business men of the two territories, and offers exceptional opportunities to ambitious and capable men and women to sell its policies.
